2. I would appreciate it if you would review this matter informally and advise us what you believe our best course to be in regard to both the language of the contract as it now stands in Section 12, and principally paragraph 3(c) of [REDACTED] memorandum containing a recommendation that CIA cover all military surgeons in this Project with a minimum of \$100,000 malpractice insurance for each one.

3. As I believe I mentioned, there is some urgency involved in reaching a tenable position in this matter since our overseas deployment date is looming on the horizon now and the employment agreements between civilian contractor personnel and ourselves are being signed every day.
